

THE EUROPEAN QUALIFICATION FRAMEWORK

The Italian National Qualification Framework

NEW VET

NETWORK FOSTERING THE EUROPEAN WORK-BASED
LEARNING SYSTEM FOR VET PROVIDERS

Co-funded by the
Erasmus+ Programme
of the European Union

WHAT ABOUT EQF?

The EQF
established and updated by

Recommendation of the European Parliament

Recommendation of the council of the 23rd of April 2008

Recommendation of the 22 of may 2017

EQF IS NOT

- a tool for an automatic recognition of qualifications
- a recognition given after a person, institution, agency has asked for it
- a framework focused on the classification of individual competences through its learning outcomes-based descriptors

WHAT ABOUT EQF?

**It's a
European
Framework
to make:**

qualifications more transparent and comparable across countries

to cover all types and levels of qualifications:

Higher education

Vocational Education and Training (VET)

General education

Qualifications awarded by the private sector ,
as well as or international organizations

WHY EQF?

EQF joined by :

23 member states,

5 candidate countries

3 SEE countrie

EQF aims to:

By easing transparency across countries and VET systems to: raising employability, easing mobility of both, students and workers

focuses on lifelong learning through the validation of both formal and non formal (competences learnt through work experience) competences

HOW DOES IT WORK?

EQF LEVELS

Each country places its diplomas/certifications awarded following education, training, learning and (sometimes) work (iapprenticeship) according to a European grid. Such grid ranges from 1 to 8 where 1 is the minimum and 8 the maximum level.

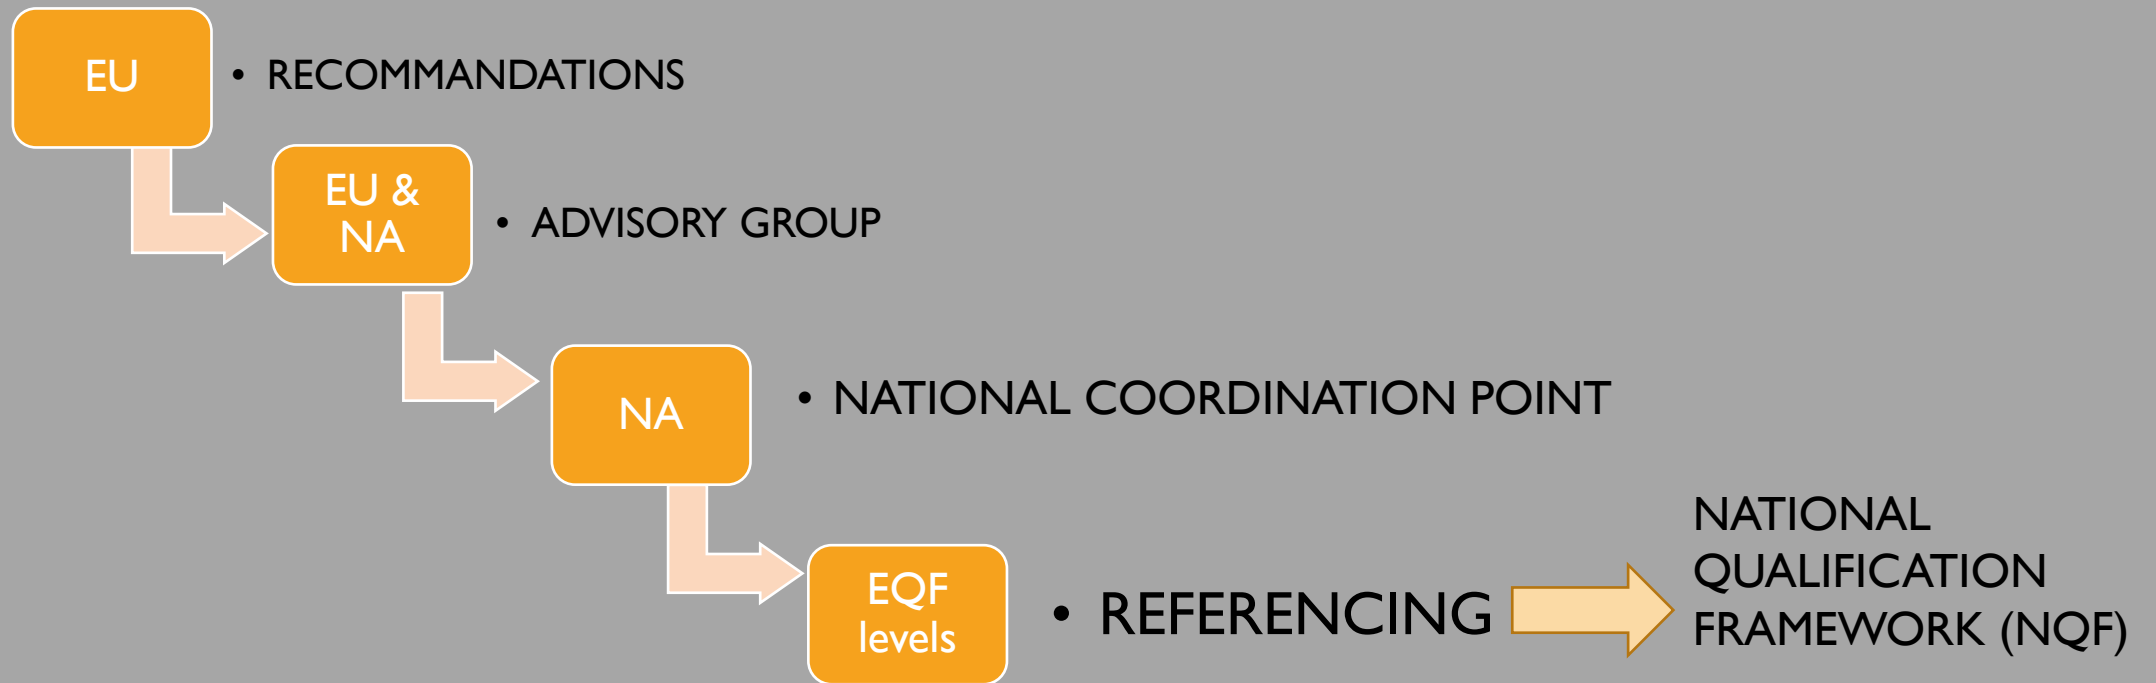

LEARNING OUTCOMES:

The EQF considers what a student knows, understands and the skills he/she has a part from the features (contents, lasting, contest) of the formal activity.

REFERENCING:

Given that the EQF is first and foremost a translation tool, qualifications are not directly included in the EQF. They are instead included in the NQFs, where their level and value abroad can be understood with reference to the eight EQF levels.

REFERENCING PROCESS

ITALIAN NQF

ITALY HAS JOINED THE RECOMMENDATION

- Punto Nazionale di Coordinamento (PNC) has been designed
- The Italian representative for Advisory Group

REFERENCING TO EQF

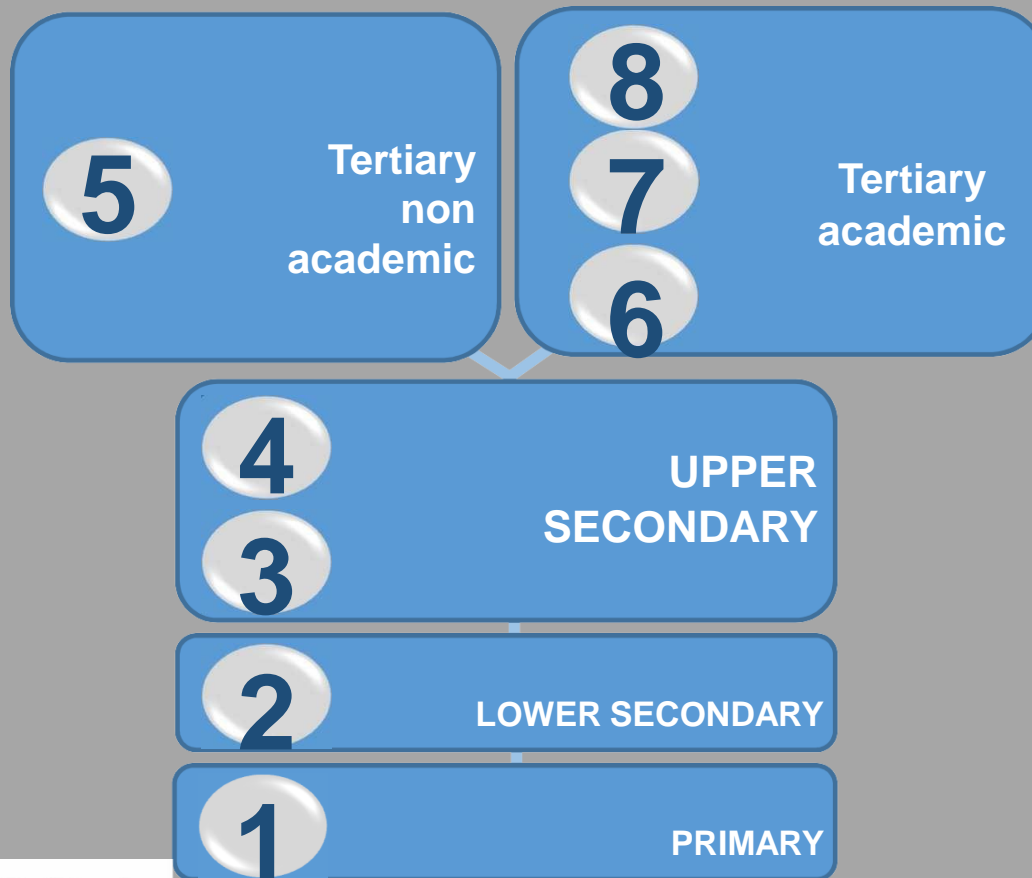

- First Italian NQF was built in 2013 and referenced as EQF

IMPLEMENTATION

- The EQF referencing is one of the requirements for all Italian qualifications
- to enter the national set of qualifications «Repertorio nazionale delle qualificazioni» (articolo 8 del decreto legislativo 13/2013)
