Executive Summary of the Report and methodological notes

WP5 intended to directly foster the dissemination and support for the implementation of the VET policy agenda, both at each national level and at EU level as well, to widely mainstream knowledge, feedback and experience of VET policy implementation and further strength the sharing of best practices on VET excellence. Thus WP5 activities were entirely focused on giving contribution to the [European Vocational Skills Week](#) initiative.

In relation to the EUVSW 2022 edition, NEW VET partners were expected to organize one or more collateral event at their national level in order to raise the attractiveness of VET, while reaching out to a wide audience, including parents, learners, teachers, companies, and in particular SMEs.

All the national collateral events listed in the present Report have been properly registered on the official platform powered by the European Commission and they all received the label “Official Partner of the EUVSW 2022”.

An official database of all the EUVSW national collateral events organised in 2022 is available on the web at this link https://ec.europa.eu/social/vocational-skills-week/register-your-event/events_en and for this reason the Author decided to provide readers just with the link where it possible to consult the full information fiche of each event organised.
